

SAVE TIME AND REPEL
DIRT, SOAP AND GRIME
WITH METRO EZYCLEAN
TECHNOLOGY

Untreated

Metro EzyClean[®]

Applied in our state-of-the-art manufacturing facilities, Metro's unique EzyClean Technology[®] provides a protective coating that creates a long lasting, invisible shield on your home's glass surfaces.

Water will simply bead off the glass surface, resulting in cleaning time being significantly reduced. And it also makes cleaning simple, only requiring the use of water and a mild detergent or microfibre cloth.

Compared to ordinary glass, Metro EzyClean Technology[®]:

- + resists staining from hard water deposits
- + does not support the growth of bacteria
- + eliminates the need for harsh and abrasive cleaning products
- + protects against the build-up of soap scum, body oils, dirt, and grime

So whilst glass protected with EzyClean Technology saves time and effort, it also stays cleaner longer, creating a more hygienic environment.

Simple maintenance:

A soft cloth is all you really need to clean your protected glass, but for best results, squeegee dry after each use. The only cleaning solution Metro recommends using is warm water and mild detergent.

Warranty:

Provided the glass is maintained according to published after-care instructions and without the use of abrasive cleaning methods or highly alkaline products, Metro Performance Glass warrants that Metro EzyClean Technology will work for up to ten (10) years from the date of manufacture.

When you see this symbol you know EzyClean Technology has been applied to the glass.
